### SAFETY

- Keep all heat sources or flames away from this umbrella.
- Do not leave the umbrella unattended
- We recommend that you close up and store your umbrella in windy conditions.
- When opening the umbrella, make sure that the area around is clear & that no one is near the umbrella. Failure to do so may result in damage to the umbrella & personal injury.

## B. SETTING UP YOUR UMBRELLA

**Step 1**  
Begin by unscrewing & removing your knob from the umbrella frame.

**Step 2**  
Find a clean & open area to spread your umbrella fabric. Then, insert the top of your umbrella's main frame into the opening of your umbrella fabric.

**Step 3**  
Replace the knob onto the frame & lock the knob in place by turning it clockwise.

**Step 4**  
Spread your umbrella fabric & your frame partially.

**Step 5**  
Insert the ribs into the middle pockets located on all corners of the umbrella fabric. Repeat this step for all your ribs.

**Step 6**  
Grab your frame & slowly bring it back up. Then, insert your main pole into the bottom pole of your umbrella frame.

## C. OPENING YOUR UMBRELLA

**Step 7**  
Get your umbrella base (sold separately) & insert the pole. Make sure to secure it in place.

**Step 1**  
Locate your pulley system rope & slowly pull it down as your umbrella extends. *\*Make sure the area around is clear & no one is near the umbrella.*

**Step 2**  
Adjust to the desired position & insert the lock pin into the pole to secure it in place.

## D. CLOSING YOUR UMBRELLA

**Step 3**  
Loop your rope around the lock pin.

**Step 1**  
Unloop the rope from the lock pin & hold on to the rope. Then, remove the lock pin from the main pole & slowly release the rope.

**Step 2**  
Locate your umbrella ties on the outer side of your umbrella and tie them.
